CAT6/A Cable Number and Colour Identification Clip-on Markers [Pack of 100]

Features:
- Easy cable identification with markers
- Durable and reliable clip-on design
- Quick installation, no special tools needed
- Pack of 100 for ample quantity
- Simplify cable organisation and troubleshooting

Our CAT6/A Cable Number and Colour Identification Clip-on Markers provide an efficient solution for identifying and organising cables in your network or wiring setup. Whether you're managing cables in your home or a professional network installation, these markers are designed to meet your needs.

The ease of use and durability of our clip-on markers make them suitable for various applications. They are designed to securely attach to CAT6/A cables, ensuring clear identification and organisation. With their bright colours and reliable design, these markers make cable management a breeze.
